

Title : Investment Basics – Asset Allocation

Keeping investments simple. What you need to know about asset allocation. Ready to invest in your retirement plan? Your plan offers different types of investments, also known as asset classes. You choose how much to invest in each asset class guaranteed, fixed income, and equities. Putting your money in different asset classes is called asset allocation which can help you balance the potential risks and rewards of each investment. Asset allocation. Guaranteed - lower risk/potential return. Fixed income. Equities - higher risk/potential return. Is the asset allocation in your retirement account the right mix for you?
